Night-vision Goggles (NVG) is a special type of night vision device. The Night-vision Goggles do not have any magnification and this allows you to use them while in motion mounted on your head, perfect for night gaming, orienteering, driving, safeguarding and search and rescue applications. They often come with straps or Headgear to fit onto your head for use without hands. Night-vision Goggles can be also mounted on the weapon or can be held in hand. They can be used together with magnifying optical modules for longer distance observing.
